Join us for this ½ day mini-conference

“Setting the Stage for Productive Struggle”

Presented by Sue O’Connell, Author

Leading Keynote Speaker

for teachers working with students in Grades K-5

Through productive struggle, our students gain a deeper understanding of mathematical concepts, develop critical learning skills, and build confidence in their math abilities. Join Sue O’Connell to explore ways to set the stage for productive struggle in your K -5 math classroom. Discover rich problems, explore simple investigations, and gather strategies for building students’ curiosity and perseverance. Explore the role of productive struggle in building confident and capable mathematicians.

Breakout sessions grades K-2 and 3-5 following keynote.

Join us on:

Saturday, February 2, 2019 from 8:30 - noon

Forrest Career and Technology Center

24005 Point Lookout Road

Leonardtown, MD 20650
